PVTA Landing Pads

CITY OF SPRINGFIELD, MASSACHUSETTS

Date: March 23, 2017

TO THE MAYOR AND CITY COUNCIL OF THE CITY OF SPRINGFIELD:

The Board of Public Works, to which was referred the petition of PVTA (Pioneer Valley Transit Authority) dated February 13, 2017 to pour one hundred fifty nine (159) concrete ADA Landing Pads on the in the City of Springfield to enhance mobility impaired individuals ability to connect from the sidewalk to the curb. The Landing Pad will be eight (8') feet perpendicular from the curb, measurement can include the sidewalk an five (5') feet parallel to the curb, PVTA will only be pouring concrete pads at bus stops that are separated by a treebelt/ grassbelt, all as substantially shown on a plan and repot from PVTA attached, referred to ADA Landing Pad Project, which is incorporated herein by reference and to lay and maintain ADA concrete landing Pad, reports thereon as follows:

By virtue of Chapter 708 of the Acts of 1977 the Board of Public Works held the hearing on the above matter provided for in Section 22 of Chapter 166 of the General Laws. The hearing was held on March 22, 2017 at 4:00 P.M. at 70 Tapley Street Springfield, MA. Three (3) members of the Board and one (1) persons interested in the matter were present. Of the latter, one (1) voted in favor of and no-one (0) voted against.

The Board finds the request necessary to improve the mobility impaired individuals the ability to connect from the sidewalk to the bus.

After careful consideration, the Board recommends the petition be granted provided:

That due care for public safety is exercised during construction including but not limited to the use of a police officer(s) for traffic control if necessary.

That said construction would not unnecessarily interfere with the movement of vehicular or pedestrian traffic in the area.

That care be taken during said construction not to damage any underground services.

That the construction site be returned to the same condition as found or better.

Said company shall indemnify and save harmless against all damages, costs and expenses whatsoever to which the City may be subjected in consequence of the acts or neglect of said Company, its agents or servants, or in any manner arising from the rights and privileges granted it by the City.

In addition said company shall, before a public way is disturbed for the laying of its wire or conduit, execute its bond in the penal sum of Ten Thousand Dollars (\$10,000) conditioned for faithful performance of its duties under this permit.

Said company shall comply with the requirements of existing Ordinances and orders and comply with any changes in Ordinances and orders as may hereafter be adopted by the Mayor and Council governing the construction and maintenance of buried cable, conduits and wires.

That any sidewalks that are damaged or removed will be replaced in kind and in accordance with the City of Springfield's Standard Specifications.

That ramps for the handicapped will be provided if and where required by law and in conformance with the Rules and Regulations of the Massachusetts Architectural Barrier Board.

That any curbing that is disturbed during construction will be reset to the established street grade using proper construction procedures.

That due care be exercised not to unnecessarily damage any public shade trees located within the construction area.

That the Springfield Water and Sewer Commission be notified before construction begins. All installations of adjacent utilities must be a minimum of 4 feet from the existing water and/or sewer main, edge to edge of pipe.

That all conditions set forth in the respective order are complied with.

HISTORY:

05/01/17 City Council

REFER TO COMMITTEE

Next: 06/19/17

Councilor Fenton moved to send this petition to Committee. Seconded by Councilor Ashe. The matter was sent to the Maintenance and Development Committee.

Councilor Bud Williams stated that he was concerned by the elimination of PVRTA bus stops in the City of Springfield.

Councilor Marcus Williams stated that the Elder Affairs subcommittee will meet on this issue as well.

ADA Landing Pad Project

Purpose: To pour 159 ADA Landing Pads in the City of Springfield to enhance connectivity to fixed route buses. These pads will serve all PVTA customers, but, are designed to particularly enhance mobility impaired individuals ability to connect from the sidewalk to the curb.

Regulation: ADA Standards for Accessible Design (810 Transportation Facilities).

Specifications: The ADA Landing pads must be 8 feet perpendicular from the curb and 5 feet parallel to the curb. This measurement can include the existing sidewalk. The landing pad spec will mirror the MassDOT specification for sidewalks. PVTA will only be pouring pads at bus stops that are separated by a treebelt/grassbelt. No work will be performed beyond the far side of a sidewalk at this time.

Funding: PVTA is paying for 100% of the work. A \$105,000 grant was given to PVTA from MassDOT for the purpose of pouring ADA landing Pads. PVTA will be leveraging some of its capital funds to complete the project.

Working with the City: PVTA receives an annual contractor's permit from the City of Springfield to conduct similar work. This required PVTA to notify the City of where the work will occur as well as the correlating DigSafe numbers.

Relationship to Bus Stop Consolidation: PVTA is going through a bus stop consolidation which will eliminate more than 40% of the stops. This 40% reduction will only impact 15% of the riders, who will be required to walk at most 500 feet to the next stop. This capital investment will make it easier for passengers to board at the new consolidated locations.

Presented by:

Joshua Rickman

Director of Operations and Planning

jrickman@pvta.com

Pioneer Valley Transit Authority
ADA Landing Pads Specifications
February 13, 2017

Scope of Work

1. Install 159 ADA landings pads in the City of Springfield.
2. Permitting and Approvals: PVT A shall be responsible for applicable permits that may be required in order to install ADA landing pads
3. Work will be performed entirely within the grass/treebelts. No work will be performed on sidewalks.
4. Work must be completed by September 30th, 2017

All ADA landing pads must comply with applicable regulation including but not limited to the following:

- Complies with ADA requirements
- Complied with Uniform Federal Accessibility Standards
- Complies with all Federal, State, County, Local and other government laws, regulations, ordinance and codes
- Conforms to all applicable requirements of the Universal Building Code 9UBC)
- Complies with all American Society for Testing Materials (ASTM)

Pad Specifications

All ADA landing pads should be constructed with Cement Concrete (Air Entrained 4000psi, $\frac{3}{4}$ ", 610) per MassDOT Specification. The concrete shall be air entrained by 6% +/- 1%, with a slump of 4" +/- 1". The sidewalk should have at a minimum of 2 control joints, one at the sidewalk and the other at the curb. The Contractor shall excavate to a depth necessary to provide 8" of gravel borrow to be installed beneath the proposed sidewalk, with a 6" by 6" wire mesh ASTM A185. In the event that the Contractor places concrete which is subject to weather conditions that may affect the surface of the cured concrete, the Contractor assumes all risk to damage to said concrete surface. The Contractor is encouraged to check daily with the weather reports and plan their work activities in a responsible manner to avoid adverse concrete curing conditions. The Contractor shall not washout concrete into any sidewalk forms and shall remove any washout that a concrete mix vendor erroneously places in said form. More information on ADA landings pads and how they are to be poured in the various widths of the grassbelts/treebelts is included in Attachment A. Please note the additional work for pads they will not be 8' in depth. All locations are provided by street address are provided in Attachment B.

General Contractor Responsibilities

- Verify that all required permits have been obtained by PVT A prior to work commencing
- Excavate earth and construct ADA landing pad per the specification
- Site Clean up
- Demolition and waste disposal (not including any existing sidewalk)

- If applicable, all required payroll records and required documents to comply with the requirements of the Davis-bacon Act. Proper documentation will be required in order to receive payment.
- Ensuring that all pads poured meet the minimum size of 5 feet by 8 feet requirement for the ADA landing pads. This size is inclusive of the sidewalk.
- Following requirements for pads that will not meet the minimum 8 feet perpendicular distance from the curb as explained in Attachment A

Required Contractor Submittal Information

In addition to Price, the bid package shall include:

- Experience
- Years In Business
- State of Massachusetts Contractors License
- Sub-Contractors information
- An itemized list detailing the cost per foot to excavate earth, installation cost per square foot including a material list and labor
- Project supervision information including hours
- Insurance information
- A minimum of 4 references that have direct knowledge of work performed by the Contractor in the past two years

Warranty

Contractor shall warranty the workmanship from any defects for a period of one year

Insurance

Contractor shall be responsible for all insurance required by the Contract with an insurer licensed to do business in Massachusetts and with an AM best rating of A or better, during the existence of the agreements with no lapse in coverage, The following coverage shall be:

General liability including products-completed operation with a minimum limits of \$1,000,000 per occurrence/\$2,000,000 general aggregate/\$2,000,000 products-completed operations aggregate; workers compensation as required by law; and, automobile liability with a combined single limit of \$1,000,000

Basis of Award

Lowest cost per square feet inclusive of all installation elements

Bid Deadline

April 1, 2017

Attachment A-Pouring of Pads

Below are graphic examples of the expected work to be conducted for this ADA landing pad work. An ADA landing pad is a smooth concrete surface that provides connection from the curb to the sidewalk. The landing pad provides adequate space for those in mobility devices to easily access a fixed route bus. An ADA landing pad must be a minimum of 5' (parallel to the curb) by 8' (perpendicular from the curb), please see Figure 1. When pouring the ADA landing pads, the existing sidewalk can be included in the total length. In the example in Figure 1, the pad that would be required to be poured is smaller than 5' by 8' but provides the necessary connection between sidewalk and curb.

Figure 1-ADA landing Pad Dimensions

In some instances there may be grassbelts that are wider than 8'. In these instances it is expected that a concrete strip of is connected across the entirety of the space, maintaining a minimum width of 60".

Figure 2-Larger Grassbelt

There will be limited circumstances where the 8' ADA landing pad would require more space beyond the width of the sidewalk. In these instances the contractor will be required to pour the connection between the curb and the sidewalk, however work is not required beyond the extent of the sidewalk. PVT A will need to secure an easement from the property owner before that work can commence. This work beyond the sidewalk will be bided at a later time. The contractor will be required to notify the PVT A of any such instances, as well as document the location and photograph the location for PVT A's records.

16-12

CITY OF SPRINGFIELD

In City Council, May 22, 2017

ORDERED, that the Rules of the Road approved September 8, 1936, as amended be further amended by striking out under Sections 2 through 13 of Article V, the following:

MAIN STREET South Side, One Hour Parking Any Time from State Street to Bliss Street and from Bliss Street to Howard Street.

AND, further amending by inserting under Section 7 of Article V, “One Hour Parking Anytime”, as follows:

MAIN STREET South Side, One Hour Parking Any Time from State Street to Bliss Street and from Bliss Street to Howard Street.

SPRINGFIELD TRAFFIC COMMISSION

Date and Time – Monday, August 8, 2016 10:15 am

Location: Greenleaf Community Center, 1188 Parker St, Springfield, MA 01129

The following Traffic Commission members were present:

Clodo Concepcion, Chairperson
Hector Velez, (Chris M. Cignoli), DPW
Glenn Guyer, Fire Department
Fred Shubrick, Member
Danny Baro, Parking Authority

MEETING MINUTES:

Mr. Clodo Concepcion called the August 8, 2016 Traffic Commission meeting to order.

Mr. Clodo Concepcion presented the first order of business, to accept the meeting minutes of Monday, May 2, 2016.

A motion was made to accept the minutes.

Unanimously approved minute of May 2, 2016

Mr. Clodo Concepcion introduce new member Fred Shubrick,

New Business:

16-12 Main Street, “One Hour Parking” from State Street to Bliss Street and from Bliss Street to Howard Street.

Mr. Velez said that this request is regarding the construction of MGM Casino. The request from MGM was no parking on State Street, but the City Council recommended one hour parking.

Mr. Guyer asked if one hour parking is permanent.

Mr. Velez said that one hour parking is temporary.

Mr. Shubrick commented that one hour parking it will be during the construction of the casino.

Mr. Baron asked if the regulation one hour parking do not include the parking meters.

Mr. Velez said that the parking meters are not included.

A motion was made to accept one hour parking on Main Street.

The motion was seconded and unanimously approved.

16-13 Maple Street “No Turn on Red” from 8:00AM to 9:00AM and from 2:00PM to 4:00PM Northbound and Southbound at intersection with Union Street.

Mr. Velez said the regulation is a request from the police and parents of students from the school near the intersection due to safety concern of pedestrian crossing the intersection.

Mr. Concepcion said during school hours.

Mr. Velez said that No Turn on Red is on school hours and is not posted at this time.

Mr. Baro commented that is good to posted before school start.

Mr. Shubrick said that is going to be 1 hour in the morning and 2 hour in the afternoon.

Mr. Velez said that in the afternoon the intersection is busier with pedestrian for a longer period.

A motion was made to accept no turn on red sign on Maple Street.

The motion was seconded and unanimously approved.

16-14 Union Street “No Turn on Red” from 8:00AM to 9:00AM and from 2:00PM to 4:00PM Eastbound and Westbound at intersection with Maple Street.

Mr. Velez said that is the same intersection of item 16-13 No Turn on Red but eastbound and westbound on Union Street.

A motion was made to accept this item.

The motion was seconded and unanimously approved.

16-15 Newland Street. “No Parking Any Time”, starting 870 feet from Plainfield Street Westerly for 20 feet.

Mr. Velez said that this request is from the residents of Newland Street. The residents have problems with the drug dealer in the street and the residents want no parking in that area to call the police and avoid others problem like trash in front of houses and loud noises late at night.

Mr. Baro asked if the residents on Newland Street have parking.

Mr. Velez said that the residents have parking in the street and some have driveways.

Mr. Shubrick asked if the sign is already in place.

Mr. Velez said that the sign have more than 120 days in place.

Mr. Concepcion said that we are not going to vote for this item resident has to be here next time to explain if it is working or not.

He item no parking on Newland Street was tabled to the next meeting.

16-16 Sheldon Street, Stop Sign facing southbound vehicles on Sheldon Street at Arch Street. Page Blvd. for 120 feet southerly

Mr. Concepcion asked if the sign is already in place.

Mr. Velez said yes, more than 120 day since winter and so far we not had any complains. We install the stop sign for the safety in that area.

A motion was made to accept this item.

The motion was seconded and unanimously approved.

16-17 Greenwich Street, Stop Sign facing southbound vehicles on Greenwich Street at Huntington Street.

Mr. Velez said that is stop signs on Greenwich Street is the same situation of Sheldon Street.

Mr. Concepcion asked what area is that.

Mr. Guyer said that is the same neighborhood next block over.

A motion was made to accept this item.

The motion was seconded and unanimously approved.

16-18 Request to rename “Falcon’s Way” to “Bruce Landon Way”.

Mr. Baro we don’t have to vote for this one, already change the name.

Mr. Velez said that this item was at the last Traffic Commission meeting but was suspended for lack of quorum.

Mr. Velez said the request is from the Mayor office to change the name to Bruce Landon Way.

Other Issues

Mr. Clodo Concepcion suggested sending the traffic commission agenda by mail.

Mr. Velez said I can send the traffic commission package by mail and email.

Mr. Concepcion adjourned the May 2, 2016 Traffic Commission meeting at 11:00 A.M.

Respectfully submitted,

Christopher M. Cignoli, P.E.
Springfield Traffic Commission

The minutes represent the writer's interpretation of the discussions transpired at the meeting. Some order of discussion may have been changed for clarity.

Raised Crosswalk-Springfield College

17-12

CITY OF SPRINGFIELD

In City Council May 22, 2017

ORDERED, that the Rules of the Road approved September 8, 1936, as amended be further amended by striking out under Sections 5 through 12 of Article VIII-A, the following:

ALDEN ST. Pedestrian Crossing on Alden Street.

AND, further amending by inserting under Section 5 through 12 of Article VIII-A "Pedestrian Crossing", as follows:

ALDEN ST. Raised Pedestrian Crossing, starting at a point four hundred (400') feet
East of Wilbraham Ave.

April 4, 2017

Springfield Traffic Commission
c/o Mr. Chris Cignoli, Director
Department of Public Works
Engineering Division
70 Tapley Street
Springfield, MA 01104

**Subject: Springfield College Learning Commons
Proposed Raised Crosswalk**

Dear Mr. Cignoli:

On behalf of Springfield College, I am respectfully submitting this petition for installing a raised crosswalk as part of its Learning Commons project. The proposed raised crosswalk is to be located on Alden Street at the main entry of the Learning Commons building. This location is expected to be a major pedestrian crossing connecting the main entry area with the campus's green quad area that also provides a pedestrian path from parking to the building.

The purpose of the raised crosswalk is to create as safe as environment for the college's staff and students to cross the street. The raised crosswalk will serve as a traffic calming device encouraging slow traffic speeds along Alden Street. Research studies have shown these devices to be effective in reducing traffic speeds significantly if designed and installed appropriately. They also increase pedestrian visibility and safety. The raised crosswalk also provides a nice level connection for accommodating the disabled crossings.

In addition to the traffic control and pedestrian benefits, the project crosswalk will be constructed attractively and be consistent with the overall redesigned building entry and court yard entry.

The proposed raised crosswalk is designed to have a 19'8" flat top that matches the walkway width on the park area and will adequately accommodate the demands. The transition ramps on either side of the flat-top are 10 feet in length. With a 6" curb rise, the transitions have a 5% grade that is within the guidelines of 4% to 8% for these devices. In accordance with the Manual on Uniform Traffic Control Devices (MUTCD), pedestrian crosswalk signage will be placed at the crosswalk in each direction. In addition, advance warning sign (W17-1) of the raised crossing/speed hump will be placed approximately 100 feet prior to the transition ramps. The

Attachment: 20170516131446039 (4021 : Raised Crosswalk-Springfield College)

Mr. Chris Cignoli
April 4, 2017

location of the proposed raised crossing will be on a tangent section of Alden Street with good visibility for motorists approaching.

The attachment depicts the proposed design of the raised crosswalk.

If you should have any questions in relation to this petition, do not hesitate to contact me at 978-923-0400.

Sincerely,

**Re: Springfield College, Springfield MA
Learning Commons**

Dear Mr. DiMauro,

The Department of Public Works is in receipt of your resubmission of the site plan for Springfield College on Alden Street in Springfield titled Learning Commons. The following documents have been reviewed as a part of this submission:

- Plan set titled Learning Commons – Springfield College, Alden Street, Springfield, MA, 26 sheets, prepared by Green International Affiliates, Inc., dated 04/07/2016.

The Department of Public Works has reviewed the submittal for the site identified above and has the following comments:

Site Plan

1. The raised crosswalk must be approved by the Springfield Traffic Commission.

Summary:

At this time, the site plan is **conditionally approved** with the stipulation that all comments must be satisfactorily addressed prior to the start of construction.

Sincerely,

Luca Mineo
Civil Engineer
Department of Public Works

**OFFICE OF PLANNING & ECONOMIC DEVELOPMENT
ANALYSIS FOR A SPECIAL PERMIT**

**475 SUMNER AVENUE (11280-0419)
INDOOR PLACE OF AMUSEMENT**

General Information

Petitioner:	Gokul S. Budathoki
Request:	Indoor Place of Amusement
Proposed use of the property:	Retail operation and indoor place of amusement.
Parcel Size:	19,097 s.f.
Compatibility with current planning documents:	The Forest Park Neighborhood Plan does not show any changes to this area.
Neighborhood council notification:	Forest Park Civic Association: 3-21-17
Tax Status:	SEE ATTACHED
Site Visit:	4-4-17
Hearing Date:	4-24-17

Staff Analysis

Neighborhood characteristics:

The parcel is currently zoned Business A and is located within the "X" neighborhood commercial district. The surrounding land uses include:

- To the north is a gas-station zoned Business A.
- To the south is a commercial parking lot zoned Residence B.
- To the west is a retail operation zoned Business A.
- To the east is a retail operation zoned Business A.

Site plan review:

The petitioner has requested a special permit to allow for an indoor place of amusement at the property known as 475 Sumner Avenue. The proposed indoor place of amusement, "Interstate Friendship Club", would be accessory to the existing Interstate Mart.

As noted above, there is currently an existing international grocery store operating at this location, known as the Interstate Mart. Plans have been submitted indicating that an indoor place of amusement would also be operated at this location. The proposed new use would consist of table games (chess, checkers, etc.), two (2) pool tables, two (2) ping pong tables and two (2) video games. This proposed use would be located behind the existing grocery store toward the rear of the building. It should be noted that in addition to the front entrance, there is also an entrance located at the rear of the building.

After reviewing the proposed plans and visiting the site, the staff does not object to the proposed use. As noted, this site is located within the "X" neighborhood commercial district. There is also a large parking lot located in the rear of the building.

It should be noted that a number of signs have already been installed, which identify this new use. Due to the fact that this site is located within the "X" Overlay District, any and all signage must be reviewed and approved by the Office of Planning & Economic Development, prior to installation. The only signs that have currently been fully permitted are for the Interstate Mart. The signs for the Interstate Friendship Club, located on the front and rear of the building, have not been permitted.

Recommendation

Approve, with conditions.

Recommended Conditions:

1. This special permit is granted to this petitioner only.
2. This special permit to operate an indoor place of amusement located at the property known as 475 Sumner Avenue (11280-0416).
3. The use shall be developed in accordance to the attached site plan with the addition of condition #4 through #6
4. All signage shall be properly permitted. Any and all un-permitted signs shall be removed.
5. The site shall be maintained free of all litter, trash and debris.
6. The public tree belt and sidewalks shall be maintained, including snow removal.
7. Compliance with these conditions, as well as any and all zoning regulations, is required. Failure to comply may result in denial of the issuance of a Building Permit and/or Occupancy Permit, revocation of any permits issued and/or enforcement by the Code Enforcement Department punishable by fines of up to \$200 per day for each day a violation exists.
