RE: Identification of two tenants with potentially dangerous dogs.

Mr. Bonner:

The Thomas J. O'Conner Animal Control and Adoption Center has received a request for dangerous dog hearings based on observations that two separate pit bulls have been roaming the area of the *Your Educational Success Academy* located on School Street. Witnesses have placed both dogs as living at your apartment complex located at 90 High Street. Furthermore, there has been a report of a child bitten by a dog in the area.

Attached hereto please find two pictures of two pit bulls and their owners. If they are tenants of yours, please contact me via telephone or email with their name and apartment number. Please be advised Massachusetts caselaw has found landlords can be found responsible for the actions of their tenant's dogs. Factors include: whether the dog has dangerous propensities, and whether the landlord had notice that their tenant was keeping a dangerous dog. Please allow this correspondence to serve as notice that two of your tenants (pictures attached) have a potentially dangerous dogs living at your apartment complex.

Thank you for your attention to, and anticipated cooperation on this important matter. If you have any questions or concerns, please feel free to contact me.

Good Morning,

When able can you please look into 64 California Ave? Our Officers spoke with the owner of the dog in April. The dog continues to roam the neighborhood, unleashed, without the owner. Ms. Toussaint, I continue to encourage you to call non-emergency dispatch when this occurs (last call was April 28th).

Hi,

Nothing has changed. The dog from the owner who lives at 64 California Ave was on my property today at 7:46pm (see photo below). The dog was far up my driveway, past my car. The only reason I don't have a pic is because I'm terrified of big dogs and was hiding in my garage. I can't continue to live like this. Please help! Thanks.

Brief Description of Incident: ATTACHMENT: YES / NO

my neighbor at 64 California has a "yellow" lab that keeps roaming the block without it's owner. I have witnessed it on my property several times. Once it stood on my driveway barking at me, preventing me from getting in my front door. Another time, it was on my driveway walking towards me and I ran to hide in my garage. I am terrified of big dogs. I have witnessed it pooping on my lawn and the side of my house. The owner is aware and continues to allow his dog to roam the block. He has a fenced back yard and frankly doesn't seem able to care for the poor dog. I have contacted animal control and the police department. ^(the dog) She was on my property as recent as 06/02/24. I only listed the dates I contacted the police or animal control.

victim was insistent biting dog lives @ 373/375 Orange St. and when we orginally MC w/tenants @ 373 Orange St. who were insistent their dogs were not loose and did not bite anyone and denied owning a black/wh pit. - stated upstairs tenants have chihuahuas so not theirs either -TR

6/13/23 - MC again with tenants @ 373 Orange St. after complaint of dogs being loose today and again stating the wh/black one - tenants admitted to owning "the white one" today, again denied the dogs getting loose and stated if they run out front they get called right back in, claimed SPD broke their back fence when they busted their party recently but the dogs are not out long - when we arrived back to shelter there was a VM from 375 Orange St. tenant that stated the dogs were brought back inside just prior to our arrival today, passed along our email to other neighbors who claimed to have photo proof of the dogs loose off their prop.

There was a F gray/wh pittie that they admitted was pregnant - the tan/wh male pittie is named "Simba"

Mrs. Maldonado 413-474-0409 claimed all dogs are current on their vax. from Spruce Hill Vet. and EDUC her about licesnses and she will try to come in on Thursady to license and ask about microchips - she claimed the puppies are all already spoken for and she is not interested in spay/neuter because she believes it makes dogs "weak" since she had issues when she previously owned 9 pit bulls and a male was fixed and started getting ear infections after his neuter.....attempted to EDUC but what we said seemed to not stick with her at all

-TR

7/1/23 - noticed that the last name was updated to "Ortiz" for P048183, - citing P048183 of 373 Orange St., Spfld for 3 dogs for unvax./unlic. since still no proof -TR

Brief Description of Incident: ATTACHMENT: YES / NO

* Photograph of handler with off leash dog emailed to responding officer

Handler has been a longstanding problem due to letting two large dogs of leash in the conservation area behind Hanson Dr. The light colored dog comes closer and shows more aggression every time I have misfortune of crossing paths with it. In addition to causing fear and knocking humans over the dogs are not prevented from interfering with varied and plentiful wildlife in the area including bear, deer, coyotes, herons, wild turkeys, and at least two endangered species of turtles. Handler is also NEVER seen collecting the waste from these two large dogs.

Michelle Bennett of 175 Hanson Dr states that on 04/22/24 at about 7:15 .M. she was walking her two dogs on their leashes at the end of Fair Oak Rd by Hanson Dr (which is a wooded conservation area) when her dogs were attacked by an unleashed aggressive yellow colored labrador retriever. This dog, along with an unleashed black labrador retriever, were being walked by an older white male. He was described as wearing a cowboy hat, a gray sweater, and did not live in the neighborhood. He had his vehicle parked at the end of Fair Oak Rd; a white sedan bearing Ma reg. 36J-420.

Ms. Bennett states that the yellow lab was vicious and was charging at her dogs with his fangs showing but finally returned to the white male after he called it back. She further states that there have been numerous complaints in the neighborhood about these unleashed dogs with the same male owner, and she herself has had other incidents with these dogs as well.

Ms. Bennett was not hurt nor were her dogs but wished to make a police report. T.J.O. responded to the scene and spoke with Ms. Bennett. The male and his dogs were already gone upon our arrival.

THE CITY OF SPRINGFIELD, MASSACHUSETTS

Franceska Garcia
27 Hickory St
Springfield, MA 01105

January 16, 2024

Dear Mr. Morales:

After a hearing held on January 9, 2024 in accordance with Chapter 110, Section 10 of the Code of the City of Springfield, 2012, as amended for a nuisance dog hearing for your dogs named Ace and Kodi was deemed Nuisance and has imposed following conditions:

The Committee imposed the following conditions on the animals:

1. That the dog be humanely restrained.
2. Your dogs must be humanely restrained with a leash and muzzled at all times when off the property owned by you. Your dogs may not be walked by anyone under the age 18. Your dogs must be confined securely in your residence or in the secure enclosure outdoors; your dogs are prohibited from roaming loose in your yard at any time and must be walked on-leash from your residence to the secure enclosure when outdoors.
3. That the owner construct, within two weeks from the date of decision, a secure enclosure to house the dog when it is in the owner's yard. The Advisory and Hearing Committee may order that, during the construction period, the dog be publicly impounded at an animal shelter or a private veterinary hospital until the secure enclosure is constructed. The effectiveness of the secure enclosure shall be subject to approval and periodic inspections by an Animal Control Officer, as deemed necessary. The fee for said inspection shall be \$75. If the owner is found violating the secure enclosure requirements, immediate public impoundment of the dog shall be done by the animal control center during the time the violation continues to exist, and the owner shall bear all cost(s) for such public impoundment. The fine for such violation shall be \$200 per day;

Any appeal of this decision may be filed in District Court in according with Chapter 140, Section 157(a) (4) (d) of the Massachusetts General Laws. Further information may be obtained from the Thomas J. O'Connor Animal Control Center, 627 Cottage Street, Springfield, Massachusetts, 413-781-1484.

Sincerely,

Gladys Oyola-Lopes

CITY OF SPRINGFIELD, MASSACHUSETTS

May 26, 2023

 460 Canon Circle
 Springfield, MA 01118

A dangerous dog hearing was held on May 24, 2023 for 460 Canon Circle by the Animal Control Advisory and Hearing Committee in accordance with Chapter 110, Section 10 of the Code of the City of Springfield. At the dangerous hearing, in which you appeared as owner of a Queensland Mix named "Scooby", it was determined by the Animal Control Advisory and Hearing Committee by a unanimous vote to declare your dog as **Dangerous**, and has imposed following conditions

The Committee imposed the following conditions on the animals:

1. The dog be confined to the premises of the owner of the dog: provided, however, that "confined" shall mean securely confined indoors or confined outdoors in a securely enclosed and locked pen or dog run area upon the premises of the owner; provided however, that such confinement shall comply with section 110-8 of this chapter
2. Registration for the dog's microchip must be current.
3. Whenever the dogs are removed from the premises of the Owner, the dogs shall be securely and humanely muzzled and restrained with a chain or other tethering device having a minimum tensile strength of three hundred (300) pounds and not exceeding three (3) feet in length;

You are to meet with representatives from the Thomas J. O'Connor Animal Control & Adoption Center (TJO) to ascertain what steps are required for compliance.

Laceration repair

- Zoey was placed in ventral recumbency. Her wounds were shaved and sterile prepared. Her lacerations being so close together there was concern for vitality of skin supply between them. The skin between lacerations was trimmed away and any discolored or dislodged fatty tissue was debrided. The wound was flushed with 300mL sterile saline. The remaining single linear laceration's subcutaneous layer was closed with multiple interrupted walking cruciate sutures. A 1/2 inch penrose drain was placed. The dermal layer was closed with a ford interlocking suture pattern.
- suture material used: 2-0 PDS & 3-0 monocryl

Carprofen 4.4mg/kg SQ

Assessments

Dr. Leah Brown

Lacerations & puncture wounds from dog fight

Plan

Dr. Leah Brown

Zoey presented for evaluation of a lacerations and puncture wounds from a dog fight.

Zoey was sedated today and while the sedation was partially reversed, Zoey may be quiet for the next few hours. Zoey may also whine/drool/pant more than normal.

MEDICATIONS

1. Clavamox 125 mg tablets: Give 1 tablet by mouth every 12 hours with food until gone This is an antibiotic. Side effects may include GI upset. **Next dose is due at 11AM, 7/20/24.**
2. Carprofen 75 mg tablets: Give 1/2 (one half) of a tablet by mouth every 24 hours with food until gone. **Next dose is due at 10PM, 7/20/24** This a

(carprofen, meloxicam, Deramaxx, aspirin) while giving this medication. If you note any vomiting, anorexia or dark stool, please stop the medication and call VESH or your veterinarian.

3) Gabapentin 100mg/ml - Give 1.5mL by mouth every 8 hours. May cause mild sedation. **Next dose is due at 8AM, 7/20/24**

NEXT STEPS

Per Massachusetts rabies law protocol, if the other dog is not available for quarantine then Zoey's rabies vaccination needs to be boosted. We boosted Zoey's rabies vaccine today.

EXERCISE RESTRICTION: It is important to limit your pet's activity for the next 2 weeks. This means that when not strictly supervised, your pet should remain in a crate, carrier, or small room. All walks should be on a leash and no longer than necessary to allow your pet to urinate and defecate. No running, jumping, or playing. Do not allow your pet access to stairs. Do not allow interaction with your other pets without supervision. If you are administering anti-inflammatory or pain-relieving medications, these could mask pain; pets may act healed before they really are and may be more likely to reinjure themselves. If you feel that your pet will not tolerate confinement for the rest period prescribed, please ask about sedative medications.

FOLLOW-UP/MONITORING:

1. Please look at the sutures daily and check for any redness, swelling, re-opening, or discharge. If these problems occur, please call. The sutures can be removed in 14 days at your regular vet or with VESH.
2. As with all lacerations, scarring, infection, pain, and the need for additional repair are potential complications.
3. An shirt or body suit should be worn until the sutures are removed to prevent damage and infection to the wound. Please look at the wound daily to monitor. No bathing or swimming until cleared by a veterinarian.

Please keep the drain clean by using a warm, moist cloth and cleaning any drainage at the exit site off 2-3 times a day. It is normal for the fluid to be clear or pink/red tinged. If it is yellow/pus-like please let us know. If your pet will allow it, hot packing the area 2-3 times a day for 5-10 minutes will also increase the drainage and decrease healing time. The drain can be pulled in 3-5 days. This can be done by your regular veterinarian or here at VESH.

We discussed concern for crushing damage to skin and bruising of lungs called pulmonary contusions. Pulmonary contusions may not occur until 24 hours after the incident. Please monitor Zoey's breathing rate and effort at home. You can determine the resting breathing rate by counting the number of breaths (each rise and fall of the chest is one breath) in 15 seconds, and then multiplying this number by 4 to get the breathing rate in breaths per minute. This should be done when Zoey is resting comfortably, not panting or immediately after activity. If the breathing rate is higher than 40 breaths per minute at rest or if it seems like Zoey is struggling to breathe or cannot get a good breath, emergency evaluation is warranted.

Leah Brown, DVM

MASSACHUSETTS RABIES PROTOCOL

A copy of the rabies exposure notification has been sent directly to your local animal control officer. You will be receiving a phone call from your local animal control officer to follow-up.

MANAGEMENT OF DOGS & CATS EXPOSED TO OTHER DOMESTIC ANIMALS: Vaccination Status of Exposing Animal Not Relevant to Recommendations

Promotion Terms:

No Interest Charges will be assessed if the promotional purchase balance is paid in full within the promotion period, which is in 12 months. If the promotional purchase balance is not paid in full by the end of this promo period, interest will be imposed from the date of purchase at the Annual Percentage Rate of 29.99%. If the word "variable" appears in the previous sentence, that APR will vary with the market based on the prime rate. This means to avoid paying interest on the promotional purchase, you must pay the entire amount of the promotional purchase balance before the end of the promo period. Minimum monthly payments are required. Making only the minimum payments required by your monthly statement may or may not pay off the promotional purchase within the promo period. If you would like to estimate a monthly payment amount that would pay off the full amount of the promotional purchase within the promo period, divide your promotional purchase amount by the number of months in the promo period or visit http://www.carecredit.com/payment_calculator. This estimated monthly payment amount assumes the promotional purchase is the only balance on your account during the entire promo period and you make each payment when due. Regular account terms apply to non-promotional purchases and, after promotion ends, to the promotional balance.

On Thursday, 4/27/23 at 1229 hrs, I was dispatched to 67 Bowles Park for a disturbance. While en route, dispatch informed me that a dog had gotten loose and possibly bit someone. Upon arrival, I was not able to locate a disturbance or any potential dog bite victims. I played the area for any loose dogs with negative results.

I then spoke with Officer Rondinello from Animal Control who had arrived on scene. She told me that the victim was located at [REDACTED]. Upon arrival, we spoke with Lyudmila Lewis who stated that while walking her dog in front of [REDACTED] the dog in that yard got through a hole in the fence and attempted to attack her dog. As she was trying to separate the two, the second dog from that address also got loose and jumped up putting its front paws on Ms. Lewis's back. Ms. Lewis said at this point she was tangled in her dogs leash and the force from the other dog knocked her down. Ms. Lewis says she was not bitten and her dog was not hurt. She refused medical attention but did have noticeable scrapes on her right knee and left wrist.

While speaking to Mrs. Lewis, her husband Craig arrived on scene and stated that he would take her to the walk in clinic for treatment. Officer Rondinello and I then made our way back to [REDACTED] in an attempt to identify the dogs owner. We spoke with Mya Gaskins who stated that her dogs did break through the fence but she didn't see what they did as she was notified by an unknown neighbor they had gotten loose. Ms. Gaskins stated she was fixing the fence today. Animal Control may follow up if necessary. Ms. Gaskins was advised. ...

Rp states brn/wht husky was roaming for several hours this morning. In her voicemail she stated a male wearing red shorts and a black shirt was chasing the dog with a large pole appearing to try to strike the dog with the pole. On arrival "Coco" was roaming off of his property of 45 Redfern Dr. The male citizen matching the discription in the voicemail was seen on the property of 45 Redfern Dr. This male identified himself to me as Alexander Andino, Coco's owner. When I asked him why Coco was roaming, he said Coco tried to bite his girlfriend and "You better come get this dog before I kill him." At this point I contacted SPD for back up. Officer Mateo also arrived on scene shortly after due to a prior call from the RP in regards to Coco being loose.

Officer Mateo & myself along with two SPD officers spoke with Mr. Andino and advised him if he wanted to surrender the dog he would have to provide the transportation for the dog and most likely surrender for EU as Coco's behavior was not appropriate for adoption. Mr. Andino was given resourses should he need to surrender Coco. All 4 officers explained to Mr. Andino that despite how upset he may be, he cannot make threats to kill an animal to a law enforcement officer. Mr. Andino is aware that is a felony offense and apologized for what he said "in anger". I advised Mr. Andino that this is a frequent problem with Coco roaming the streets and that the DDH/NDH process has begun. I also advised Mr. Andino that it is his responsibility to keep Coco confined safely in his yard. Officer Mateo discussed tethering options as well. Mr. Andino aware that should he decide to surrender Coco for euthanasia that he should keep documented proof should that happen prior to the hearing. I provided him my business card to send me documentation if this takes place.

I cited Mr. Andino for today's encounter. - SL
