III. Discussion of: Mandatory lighting and cameras at gas stations that are open after 11pm "Project Greenlight".

The Public Safety Committee met on the "Project Green Light" proposal. This proposal would require businesses that are open in the late night hours to have proper lighting and video camera's on their property. Commissioner Barbieri is in support of this initiative along with Councilors Ashe and Hurst. Detroit has taken part in this project and has seen a 50% drop in crime on the business properties.

The Law department and Police Department are going to work on a proposal for the City Council to vote on in the near future. The Public Safety Committee will hold another meeting to review this proposal. Then the committee will give their recommendations to the full City Council.
