To: City Council

From: Timothy J. Plante, CAFO

Date: October 2, 2013

Re: Former Chestnut Jr High School Demolition

Cc:

The purpose of this memo is to provide an update as requested at the September 9th City Council Meeting regarding the demolition and asbestos remediation of the former Chestnut Junior High School Building.

History

On Tuesday September 3rd 2013 there was a fire at the former Chestnut Junior High School, 495 Chestnut Street, Springfield. The former school has been unoccupied for several years and has subsequent interior deterioration. The Building Commissioner has deemed the building unstable and had ordered it to be demolished.

Timeline and Cost of Implementation

The initial emergency cost incurred to date to stabilize the site is estimated to be \$25,000. These costs include temporary fencing to keep the parcel secured to prevent any threat to the neighborhood.

It has been identified that the building site contains hazardous waste which will require asbestos remediation. The estimated cost to demolish the building is deemed to be approximately \$1,500,000. The Department of Environmental Protection is working with the Housing and Building Departments to ensure the proper disposal of hazard materials.

Next Steps

The next step is to put the demolition project and asbestos remediation out to bid and award a contract to the lowest qualified bidder.
