This site is the current location of the Body Shop, an auto body repair facility. This site is the current location of Galley Motorsports and Signarama.

After review of the plans and visiting the site, the staff does not object to the proposed use. As noted above, the petitioner intends to sell motorcycles in conjunction with its existing motorsports operation. Due to the fact that this property is zoned Business A, the sales of vehicles is only allowed as an accessory use and, as such, is limited to no more than five (5) vehicles.

As noted above, the staff does not oppose the special permit. After visiting the site, it was noted that the property is being maintained in very good condition. The petitioner has requested a special permit to install two (2) wall signs, above the first floor, at the property known as 1150 Hall of Fame Way. This site is currently location of LA Fitness, the former Mama Iguana's and Professional Physical Therapy offices. The proposed signs would be for the former Mama Iguana's location and would be replacing and the existing Mama Iguana's signage at this location.

AMEND AN EXISTING SPECIAL PERMIT (RECYCLING CENTER)**

General Information

Petitioner:	Northstar Pulp & Paper Company, Inc.
Request:	To amend an existing special permit (recycling center), granted January 2001, at the property known as 89-99 Guion Street, by allowing the recycling of plastics and wooden pallets as well as amending the current hours of operation as listed in the January 2001 special permit, amending the provisions for outside storage as listed in the December 2003 special permit and further allowing the storage of tractor trailers, as an accessory use, on a portion of the property known as 299 Page Boulevard.
Proposed use of the property:	Recycling Center
Parcel Size:	902,419 s.f. (approximately 20.7 acres)
Compatibility with current planning documents:	The East Springfield Neighborhood Plan shows no changes to this area.
Neighborhood council notification:	East Springfield Neighborhood Council: 9-25-19
Tax Status:	SEE ATTACHED
Site Visit:	10-22-19
Hearing Date:	10-28-19

Neighborhood characteristics:

This site is zoned Industrial A and Business B and is located within an area that has a mix of commercial/industrial and residential uses. The surrounding land uses include:

- To the north are two-family homes zoned Residence A.
- To the south is a manufacturing operation zoned Industrial A.
- To the west are a number of small businesses zoned Industrial A and Business B.
- To the east is a metal recycling operation zoned Industrial A.

Site plan review:

The petitioner has requested to amend an existing special permit (recycling center), granted January 2001, at the property known as 89-99 Guion Street, by allowing the recycling of plastics and wooden pallets as well as amending the current hours of operation as listed in the January 2001 special permit, amending the provisions

for outside storage as listed in the December 2003 special permit and further to allow the storage of tractor trailers, as an accessory use, on a portion of the property known as 299 Page Boulevard. This site is the current location of the Northstar Pulp & Paper Recycling operation. This use has been in operation for a number of years.

In reviewing the proposed request, the staff has the following comments. First, as noted above, this property has been in operation for a number of years as a recycling center for paper products. The petitioner is now requesting to amend that special permit to allow for the recycling of plastics and wood. In speaking with the East Springfield Neighborhood Council, one of the issues that they are concerned with is with outdoor storage of the product. This has caused issues with the abutters as well as with the larger neighborhood as a whole. As such, they are recommending a number of conditions to help deal with this issue. After reading the conditions recommended by the neighborhood, the staff is in agreement that, if approved, these conditions should be attached to the special permit.

Specifically, that outdoor storage of paper, plastics and wood should only be allowed in specific areas as shown on the submitted site plan. Further, that any and all trailers being used for the storage of these materials be required to be closed at all times when not in use. The neighborhood is also recommending that solid fencing be installed along Guion Street. Lastly, a condition that the property be cleaned daily is also being recommended.

In addition to amending the special permit to allow for the inclusion of plastics and wood in the recycling operation, the petitioner is also requesting to amend the current hours of operation. Over the years of operation, a number of differing hours of operation have been attached to this property. The latest special permit, issued in 2003, states that the hours of operation were to be from 6:00AM to 11:00PM, Monday through Friday and 6:00AM to 2:00PM on Saturdays. After speaking with the neighborhood council, it was agreed upon to allow the operation to be open from 6:00AM to 11:00PM, Monday through Friday and 6:00AM to 6:00PM on Saturdays. No shredding would be allowed to start on Saturdays until after 8:00AM. The neighborhood is also recommending limiting the hours that deliveries would be allowed.

In addition to the amendments outlined above, the petitioner has also requested to allow for the storage of tractor trailers, as an accessory use to the recycling operation, on a portion of the property known as 299 Page Boulevard. This site is adjacent to 89 Guion Street and was the former location of the Smith & Wesson Shooting Sports Center. A plan has been submitted by the petitioner showing that a portion of this property would be used for the storage of tractor trailers. Due to the fact that these trailers will be used in conjunction with the existing recycling center, it needs to be stressed that these trailers must be kept closed at all times, when not in use.

Overall, after reviewing the plans submitted and visiting the site, the staff does not believe the proposed amendments, with the added conditions, will have a negative effect on the abutters or on the neighborhood as a whole. However, it does need to be stressed to the petitioner that it is their responsibility to ensure that any and all conditions placed on the special permit must be adhered too.

Recommendation

Approve, with conditions.
