Staff Analysis

Neighborhood characteristics:

The parcel is currently zoned Business B and is located in an area with a mix of commercial and residential uses. The surrounding land uses include:

- To the north are a church and single family home zoned Business A.
- To the south is an auto repair facility zoned Business B.
- To the west is a warehouse zoned Business B.
- To the east is a single family home zoned Residence B.

Site plan review:

The petitioner has requested a special permit for motor vehicle sales at the property known as 1304 Worcester Street, in the Indian Orchard neighborhood. The site is currently vacant and was sold at a city auction.

After visiting the site and viewing the plans, the staff has the following comments. First, the plan submitted indicates that only the front half of the parcel will be paved. The rear of the parcel is proposed to remain grassed. The submitted plans indicate that eleven (11) spaces will be created. However, as noted on the plans,

all eleven (11) spaces are intended to be used for the display of used cars. Since employee and customer parking must also be accommodated on-site, the staff is strongly recommending that the number of display spaces be limited to eight (8). This would allow for the display of vehicles while also still providing on-site parking for customers and employees. Also, it needs to be stressed to the petitioner that the rear of the parcel cannot be used for parking or display of vehicles unless this portion of the lot is paved as well. As with all paving plans, review and approval by the Department of Public Works (DPW) is required.

Secondly, there is currently a stockade fence running along the eastern property line, however, this fence is in very poor condition. If approved, the staff is recommending that a new stockade fence be installed. Further, the proposed plans indicate that arborvitae shrubs will be installed ten (10) feet on center along only half of the site. Planting arborvitae shrubs at this distance will provide absolutely no buffer to the abutting residence. Therefore, the staff is recommending that the arborvitae shrubs be planted three (3) feet on center and run the entire length on the property. Again, this is very important as this property directly abuts residential uses.

Lastly, it should be noted that a small office building will also be constructed on the site. As with all new construction, these plans will need to be permitted by the Springfield Building Department.

Recommendation

Approve, with conditions.

Recommended Conditions

1. This special permit is granted to this petitioner only.
2. This special permit is granted solely for motor vehicle sales at the property known as 1304 Worcester Street (12525-0375).
3. The use shall be developed according to the attached plans, with the addition of conditions #4 through #16.
4. The number of vehicles to be sold or displayed, at any one time, shall be limited to eight (8).
5. There shall be no repairs to vehicles completed at this location.
6. There shall be no storage of junk vehicles.
7. There shall be no parking of vehicles on the grassed portion of the property.
8. A new six (6) foot high stockade fence shall be installed along the eastern property line.
9. The existing chain link fence, along the front of the property shall be painted and remain at only four (4) feet.
10. There shall be no barb-wire or razor wire on any fencing.

11. A full review by the Department of Public Works, as per the provisions of City Ordinance, Article VIII, §27-29, will be required. This approval must be obtained prior to the issuance of a Building Permit or start of any paving work.
12. Arborvitae shrubs, three (3) feet in height at the time of planting, planted three (3) feet on center, shall be installed along the entire length of the eastern property line.
13. Any and all Building Permits shall be obtained prior to any construction.
14. The site, including all landscaped areas shall be maintained and kept free of all litter, trash and debris.
15. The public tree belt and sidewalk along Worcester Street shall be maintained, including snow removal.
16. Any and all dumpsters shall be completely enclosed.

The parcel is currently zoned Industrial A and is located in an area with primarily industrial/commercial uses. The surrounding land uses include:

- To the north is a warehouse operation zoned Industrial A.
- To the south is a warehouse operation zoned Industrial A.
- To the west are warehouse operations zoned Industrial A
- To the east are rail road tracks and I-91.

Site plan review:

The petitioner has requested a special permit to operate an indoor place of amusement at the property located at the property known as 87 Avocado Street. This was a former warehouse and is now being proposed to be renovated into a trampoline park known as *Launch Trampoline Park*.

As noted above, this location was the former location of a large industrial building. A large portion of the building is currently vacant while the remaining portion of the building appears to still be occupied for a

warehouse use. The petitioner intends to renovate the existing theater spaces into a new trampoline park. This will be a large recreational facility which utilizes large format trampolines for a number of different uses. The site plan submitted indicates that there will be "slam dunk" basketball hoops and foam pits. Other uses include trampoline dodgeball courts and "party" rooms. The petitioner has indicated that this facility caters to families, large groups for parties, camps, schools and other special events. It should be noted that the trampoline park will only be located in one (1) side of the building. The

petitioner has indicated that they do not yet have any definitive plans for the second half of the building, however, as noted above, this portion of the building appears to be occupied.

After reviewing the proposed plans and visiting the site, the staff does not object to the proposed use. The staff believes this is a unique re-use of a vacant property and one that will not have a negative effect on the surrounding neighborhood. Due to the fact that Avocado Street is currently devoid of any trees, the staff would strongly suggest that, if approved, the petitioner be required to plant a number of street trees within the public tree belt.

Recommendation

Approve, with conditions.

Recommended Conditions

1. This special permit is granted to this petitioner only.
2. This special permit is granted solely for the operation of an indoor place of amusement (trampoline park) at the property known as 87 (a.k.a. 147) Avocado Street (00845-0070).

4. Any and all Building Permits shall be obtained prior to any construction.
5. The site, including all landscaped areas shall be maintained and kept free of all litter, trash and debris.
6. The public tree belts and sidewalks along Avocado Street shall be maintained.
7. The petitioner shall install five (5) shade trees along the Avocado Street tree belt. Varieties and locations to be reviewed and approved by the City Forester.
8. Any and all dumpsters shall be completely enclosed.
9. Compliance with these conditions, as well as any and all zoning regulations, is required. Staff Analysis

Neighborhood characteristics:

The parcel is currently zoned Business A and is located within an area that has a mix of commercial uses.

To the north is a veterinary clinic zoned Business A.

To the south are offices zoned Business A.

To the west is Interstate 91.

To the east is vacant land zoned Residence C.

Site plan review:

The petitioner has requested to amend an existing special permit, granted December 2013, by allowing a change to the petitioner as the property known as 351 East Columbus Avenue. This site has been used for automotive repairs and used car sales for a number of years.

While the staff has no objection to the change in the petitioner, the staff did note a couple of issues that need to be addressed after visiting the site. First, it needs to be made clear to the petitioner that the number of cars allowed to be sold at this location, at any one time, is limited to five (5). At the time of the site visit, there appeared to be six (6) to seven (7) vehicles with "for sale" signs posted. Second, it was noted that the required landscaped planters were not located on the site.

Further, it was noted that a new roof addition has been constructed but not yet finished. If this special permit is approved, the staff would strongly suggest that a condition be added requiring the completion of this new addition.

Lastly, it should be noted that there is currently a large sign at this location. Due to the height of this sign, it is considered to be a pre-existing, non-conforming use. As per the Zoning Ordinance, non-conforming signs are allowed to remain so long as they continue to call attention to a product or business which is located on the property (Article 9, Section 9.11).

Therefore, this sign needs to either be removed or utilized for the existing business.

Recommendation

Approve, with conditions.

Recommended Conditions:

1. This special permit is granted to this petitioner only.
2. This special permit is granted solely for motor vehicle sales, as an accessory use, at the property known as 351 East Columbus Avenue (04303-0630).
3. The use shall be developed as per the attached site plan, dated September 2007, with the addition of conditions #4 through #10.
4. The existing roof addition shall be painted.
5. There shall be no more than five (5) vehicles displayed for sale at any one time.
6. There shall be no storage of junk vehicles or parts located on the property.
7. The site shall be maintained graffiti free.
8. There shall be landscape planters, with seasonal plantings, placed along the corner of Bruno Street and East Columbus Avenue.
9. The public sidewalks shall be maintained, including snow removal.
10. Vehicles for display shall not be elevated.
11. Compliance with these conditions, as well as any and all zoning regulations, is required. Failure to comply may result in denial of the issuance of a Building Permit and/or Occupancy Permit, revocation of any permits issued and/or enforcement by the Code Enforcement Department punishable by fines of up to \$200 per day for each day a violation exists.
