Read and Councilor Allen asked Chris Cignoli, Director of DPW to explain why the City is seeking to discontinue a portion Allen Street and a land swap at the corner of Allen Street and Island Pond Road. Mr. Cignoli said that Board of Public Works had met at the site and had approved the discontinuance and land swap with conditions such as widening of Allen Street and modification of the traffic signal. Councilor Allen said that citizens of

East Forest Park still had some concerns about public safety and crosswalks. Councilor Allen then made a motion to refer to committee and was seconded by Councilor Ashe. Councilor Williams on the motion said that the intersection is very dangerous and needs an independent traffic study but agreed that the matter should go to committee. Councilor Shea on the motion asked if there were public safety issues could DPW stop the project and Mr. Cignoli said no that the owner as a matter of right can put the project on the site and all DPW can do is request mitigation and if the owner agrees to those mitigations the project can go forward. The Council received the Report by an unanimous voice vote.

Beth,

This is still in the application process. I started the paperwork so it will be ready when it goes to Council. There has been so many grant items lately that I just want to try to stay on top of the stuff when I find out about it – which is always after the fact anyway.

Technically, this would have been the 62416 project code. Maybe a letter can be assigned after the number?

Whatever you decide is fine. Again, I don't even have the award letter or contract yet.

Thanks!

Lisa

Dear Paula:

I am very excited to let you know that HNE's Charitable Giving Committee approved \$40,820 for the Open Gyms Program. As you know HNE is committed to improving the health status and the quality of life of the communities we serve. The Open Gym Program is a great way to help make our mission become a reality.

I know that Mayor Sarno is a big supporter of this program and HNE is proud to sponsor it again for the upcoming school year. In order to add another dimension to the program, we respectfully request that Mayor Sarno ask the Police Commissioner to have City officers visit the programs on a regular visit to continue making positive connections with our City youth.

On a personal note, both Chris and I enjoyed meeting with you and Randy Piteo and look forward to yet another successful year with the Open Gym Program. Thank you for all the work you do to get this program operational!

Sincerely,

City of Springfield Complete Streets Policy

CITY OF SPRINGFIELD COMPLETE STREETS POLICY

WHEREAS, "Complete Streets" are defined as streets that are designed to accommodate all users - motorists, pedestrians, bicyclists, and transit riders;

WHEREAS, "Complete Streets" can include a range of elements to accommodate all transportation users, including, but not limited to, sidewalks, signage, paved shoulders, bicycle lanes, cycle tracks, traffic lanes shared with motorist including sharrows and other bicycle pavement marking, crosswalks and other pavement marking for pedestrians, pedestrian control signalization, bicycle actuated traffic signals, bus pull outs, curb cuts, raised crosswalks, roundabouts, traffic islands and other traffic calming measures;

WHEREAS, "Complete Streets" principles should guide future roadway and transportation plans for both new and reconstruction projects in the City of Springfield, and any exception to this approach should be appropriately justified;

WHEREAS, "Complete Streets" application will vary depending on the surrounding transportation system, land uses and densities and its general context, however street and transportation plans should always be guided by the principle that streets should promote multiple transportation options for all people;

WHEREAS, "Complete Streets" can spark economic development and community development by helping to create walkable, vibrant communities where businesses can thrive and be strong, livable neighborhoods for City of Springfield residents;

WHEREAS, "Complete Streets" can play a role in transportation projects by improving bicycle and pedestrian safety, reducing traffic congestion, improving air quality both by promoting alternative forms of transportation and by helping to improve traffic flow;

WHEREAS, the people of the City of Springfield have expressed a strong desire for increased transportation options, including walking, cycling, and transit;

NOW, THEREFORE BE IT RESOLVED that the Springfield City Council strongly endorses a Complete Streets approach for the City of Springfield to enhance transportation options and to improve quality of life for the residents of Springfield as follows:

1. The City of Springfield shall, to the maximum extent practical, scope, plan, design, construct, operate, and maintain all City streets to provide a comprehensive and integrated network of facilities for people of all ages and abilities traveling by foot, bicycle, automobile, public transportation, and commercial vehicle.
2. Such improvements shall be consistent with and supportive of the local community, and that early consideration shall be given to any project's land use and transportation context.
3. Facilities for all users shall be considered in the construction, reconstruction, retrofit, repaving, and maintenance of City streets, except under one or more of the following conditions:
 - a. The project involves a roadway on which a specific use is prohibited by law or there are right-of-way constraints.
 - b. There is a documented absence by the City of Springfield of existing bicycle or pedestrian activity and absence of future need recognized in approved Springfield Transportation Plan elements.
 - c. The Subdivision Regulations does not require sidewalks along the proposed street; however some accommodations for bicycles may be needed depending on approved plans.
 - d. The costs of providing accommodation are "excessively disproportionate" to the need or probable use, as recognized by the City of Springfield.
4. The City shall, to the maximum extent practical, follow the latest adopted design standards when implementing this policy, including, but not limited to:
 - a. Guidance issued by the:
 - Massachusetts Department of Transportation
 - American Association of State Highway Transportation Officials publications including A Guide for Achieving Flexibility in Highway Design
 - Institute of Transportation Engineers' Recommended Practice, "Designing Walkable Urban Thoroughfares: A Context-Sensitive Approach
 - National Association of City Transportation Officials' "Urban Bikeway Design Guide"

- b. Application of design standards shall be flexible, recognizing that all streets are not alike and that user needs should be balanced, and innovative or non-traditional design options shall be considered.
5. The Director of Public Works and City Engineer will assist in the implementation of this resolution.

BE IT FURTHER RESOLVED that the City of Springfield will work with the Pioneer Valley Planning Commission, Massachusetts Department of Transportation, and community organizations to achieve the goals set forth in this Complete Streets policy.
